EMS > Global Network > Prepare your EMS label

## Prepare your EMS label

It's easy to prepare your label

1. Prepare your EMS label - complete the form below,
2. Print the label and attach to your EMS item,
3. Take it to your local Post and send for delivery.

For more information please contact your [EMS operator](#)

EMS > Service Guidelines > EAD visibility: ITMATT / EMSEVT V3  
**Electronic Advance Data (EAD) visibility**

## Act now EAD

From January 2021, Electronic Advance Data (EAD) transmission is required for posts to send items around the world. Many posts are already transmitting EAD. Countries around the world now have put in place international legislation and requirements for EAD, including the United States, China, EU, Brazil, Russia, and Australia.

EAD legislation map

## Benefits of EAD

- Improves security – it meets the needs of international regulators and governments
- Reduces delays – by improving efficiencies of transportation and customs clearance processes
- Better service – improving visibility gives customers peace of mind.

## What can members do?

For better efficiency and security designated operators should send information in advance using:

There is an urgent need to implement ITMATT and EMSEVT V3, and transmit advanced electronic data due to changes in laws affecting cross-border postal services

**Send information in advance**

- ITMATT >
- EMSEVT V3 >

**Use CDS**

- Capture ITMATT - prepare your EMS label >
- Send ITMATT - CDS >

**Train your staff**

- EMS Supply Chain driven by EAD workshops >
